Application form

Environmental authority

Application to amend an environmental authority

This approved form is to be used when applying to amend an environmental authority under sections 222 to 227 of the Environmental Protection Act 1994 (EP Act) for an environmentally relevant activity (ERA).

An application to amend an environmental authority is not appropriate in all circumstances. If you answer **YES** to any of the questions in the checklist below, you cannot use this application form. If you answer **NO** to all of the questions in the checklist, you may continue to use this application form.

It is recommended that you read the information on what to provide with an application, prior to making an amendment application. This information is located on the Queensland Government's Business and Industry Portal at www.business.qld.gov.au (use the search term "environmental licences"). This website also has a diagnostic tool called a "Forms and fees finder" which will take you through a series of questions and provide a customised result which will identify any forms, fees and supporting information you need to make an application.

You are encouraged to have a pre-lodgement meeting before applying to amend your environmental authority. If you would like to have a pre-lodgement meeting:

- for prescribed ERAs 2, 3 and 4—contact the Department of Agriculture and Fisheries by email at livestockregulator@daf.qld.gov.au.
- for any other ERA—please fill out and lodge the form "Application for pre-lodgement services" (ESR/2015/1664¹), prior to lodging this application form.

Checklist for making an amendment application

	st complete the checklist below and overleaf before you continue with the application form. If your tion is for:
	a prescribed ERA $ ightarrow$ you must fill in Section 1 and Section 2 of the checklist below.
	a resource activity \rightarrow you must fill in Section 1 and Section 3 of the checklist below.
\boxtimes	both a prescribed ERA and a resource activity \rightarrow you must fill in sections 1, 2 and 3 of the checklist below.

¹ This is the publication number. The publication number can be used as a search term to find the latest version of a publication at www.qld.gov.au.

If you have answered yes to any of the below questions, you cannot use this application form. If you have answered no to all of the below questions, you may continue to use this application form.

Checklist questions		Guldance
Section 1 – all applications	. "	
Is the amendment to correct a clerical or formal error?	☐ YES	If yes, you cannot use this form. This request should be made in writing directly to the administering authority (no fees apply).
Is the amendment to amalgamate two or more environmental authorities?	□ YES ⊠ NO	If yes, you cannot use this form. Please use either the form Application to amalgamate two or more environmental authorities into an amalgamated corporate authority (ESR/2015/1734), or Application to amalgamate two or more environmental authorities into an amalgamated project or local government authority (ESR/2015/1735).
Is the amendment to add an ERA to an amalgamated local government authority and there is not an appropriate degree of integration between the proposed activity and the existing activities on the authority?	□ YES	If yes, you cannot use this form. You will need to apply for a new environmental authority. For a standard application use the form Standard environmental authority application (prescribed activity) (ESR/2015/1793) or Standard environmental authority application (resource activity) (ESR/2015/1755). For a variation application, use the form Variation environmental authority (prescribed activity) (ESR/2015/1796) or Variation environmental authority (resource activity) (ESR/2015/1756). For a site-specific application use the form Site-specific environmental authority application (prescribed ERA) (ESR/2015/1792) or Site -specific environmental authority application (resource activity) (ESR/2015/1757).
Is the amendment to add an ERA to an amalgamated project authority and the proposed activity does not form part of the single integrated operation conducted under the authority?	□ YES ⊠ NO	If yes, you cannot use this form. You will need to apply for a new environmental authority. See form details above.
Is the amendment to amend financial assurance only?	☐ YES	If yes, you cannot use this form. Please use the form Application to amend or discharge financial assurance (ESR/2015/1752).
Is the amendment to remove or amend a condition requiring compliance with the eligibility criteria, and is a result of changes to the activity?	☐ YES ☑ NO	If yes, you cannot use this form. Please make a site-specific application for a new environmental authority using the form Site-specific environmental authority application (prescribed ERA) (ESR/2015/1792) or Site-specific environmental authority application (resource

		activity) (ESR/2015/1757).					
		Note: If the required amendment to the eligibility criteria condition is a result of factors beyond your control such as residential encroachment, rather than a change to the activity, you can use this form. The amendment will be a major amendment.					
Section 2 – prescribed ERAs	Section 2 – prescribed ERAs						
Is the amendment for the holder of the environmental authority to transfer all or part of the environmental authority to a person?	☐ YES	If yes, you cannot use this form. Please use the form Request to transfer all or part of an environmental authority for a prescribed environmentally relevant activity (ESR/2015/1718).					
Does the proposed amendment involve changes to the relevant activity that		If yes, the development application must be lodged before an environmental authority amendment application can be made.					
require a new development application to be lodged under the <i>Sustainable Planning Act 2009</i> (SPA) and the application for the amendment has not been lodged.	☐ YES	Under EP Act, a development application for a material change of use of premises for an environmentally relevant activity is deemed to be also an application for an environmental authority. In this case, an environmental authority amendment application should not be lodged.					
Is the proposed amendment solely to add or remove vehicles for ERA 57 (Regulated waste transport) within the approved threshold?	☐ YES	If yes, you do not need to submit this application form. Use the form Details of regulated waste vehicles (ESR/2015/1851).					
Is the proposed amendment to add a prescribed ERA, other than an ancillary activity, to an environmental authority for a resource project?	□ YES ⊠ NO	If yes, you cannot use this form to add the prescribed ERA to the environmental authority. You will need to apply for a new environmental authority. Refer Section 1 above for appropriate form.					
Section 3 – resource activities (mining,	petroleum,	geothermal or GHG storage activities)					
Is the amendment for a partial surrender of an environmental authority for a mining, geothermal or petroleum resource activity?	□ YES ☑ NO	If yes, you cannot use this form. Please use the form Application for surrender of an environmental authority (prescribed ERA) (ESR/2015/1719) or Application for surrender or partial surrender of an environmental authority (resource activity) (ESR/2015/1751).					
Is the proposed amendment to add a resource activity to an environmental authority for a prescribed ERA project?	☐ YES	If yes, you cannot add the resource activity to the environmental authority. You will need to apply for a new environmental authority. Refer Section 1 above for appropriate form.					

Definitions of terms used in this form

Where there is inconsistency between the definition of terms used here and the terms used in the EP Act, the terms in the EP Act apply.

Condition conversion

For an environmental authority, means an amendment replacing all the conditions of the authority with the standard conditions for the environmentally relevant activity which the authority relates. The relevant eligibility criteria and standard conditions must be able to be met.

Eligibility criteria

For an environmentally relevant activity, means eligibility criteria that are in effect for the activity under –

- (a) an ERA standard; or
- (b) a code of environmental compliance; or
- (c) a regulation in respect of a mining activity.

Environmentally relevant activity (ERA)

A resource activity or a prescribed ERA

ERA project

A prescribed ERA project or a resource project.

ERA standard

For an environmentally relevant activity, means the eligibility criteria and/ or the standard conditions set by the administering authority.

Major amendment

For an environmental authority, means an amendment that is not a minor amendment.

Material change of use of premises for an environmentally relevant activity

A category of assessable development requiring a development permit under SPA. Refer Schedule 3, Table 2, Item 1 of the Sustainable Planning Regulation 2009.

Minor amendment

For an environmental authority, means an amendment that is—

- (a) a condition conversion; or
- (b) a minor amendment (threshold).

Minor amendment (threshold)

For an environmental authority, means an amendment that the administering authority is satisfied—

- (a) is not a change to a condition identified in the authority as a standard condition, other than—
 - (i) a change that is a condition conversion; or
 - (ii) a change that is not a condition conversion but that replaces a standard condition of the authority with a standard condition for the environmentally relevant activity to which the authority relates; and
- (b) does not significantly increase the level of environmental harm caused by the relevant activity; and
- (c) does not change any rehabilitation objectives stated in the authority in a

- way likely to result in significantly different impacts on environmental values than the impacts previously permitted under the authority; and
- (d) does not significantly increase the scale or intensity of the relevant activity;
 and
- (e) does not relate to a new relevant resource tenure for the authority that is-
 - (i) a new mining lease; or
 - (ii) a new petroleum lease; or
 - (iii) a new geothermal lease under the Geothermal Energy Act; or
 - (iv) a new GHG injection and storage lease under the GHG storage Act; and
- (f) involves an addition to the surface area for the relevant activity of no more than 10% of the existing area; and
- (g) for an environmental authority for a petroleum activity-
 - if the amendment involves constructing a new pipeline—the new pipeline does not exceed 150km; and
 - (ii) if the amendment involves extending an existing pipeline—the extension does not exceed 10% of the existing length of the pipeline; and
- (h) if the amendment relates to a new relevant resource tenure for the authority that is an exploration permit or GHG permit—the amendment application under section 224 seeks an amended environmental authority that is subject to the standard conditions for the relevant activity or authority, to the extent it relates to the permit.

Mobile and temporary ERA

A prescribed ERA, other than an activity that is dredging material, extracting rock or other material, or the incinerating of waste:

- (a) carried out at various locations using transportable plant or equipment, including a vehicle
- (b) that does not result in the building of any permanent structures or any physical change of the landform at the locations (other than minor alterations solely necessary for access and setup including, for example, access ways, footings and temporary storage areas)
- (c) carried out at any 1 of the locations:
 - (i) for less than 28 days in a calendar year, or
 - (ii) for 28 or more days in a calendar year only if the activity is necessarily associated with, and is exclusively used in, the construction or demolition phase of a project.

Prescribed ERA

An environmentally relevant activity that is not a resource activity and is prescribed under section 19 of the EP Act.

Prescribed ERA project

All prescribed ERAs carried out, or proposed to be carried out, as a single integrated operation.

Registered suitable operator

A person who, or a corporation which, under section 318I of the EP Act has been assessed as being suitable to carry out an ERA and has been listed on the suitable operator register.

Resource activity

An activity that is any of the following:

- (a) a geothermal activity
- (b) a greenhouse gas (GHG) storage activity
- (c) a mining activity
- (d) a petroleum activity.

Resource project

Resource activities carried out, or proposed to be carried out, under 1 or more resource tenures, in any combination, as a single integrated operation.

Single integrated operation

Occurs when all the below criteria are met:

- (a) the activities are carried out under the day-to-day management of a single responsible individual, for example, a site or operations manager
- (b) the activities are operationally interrelated
- (c) the activities are, or will be, carried out at one or more places
- (d) the places where the activities are carried out are separated by distances short enough to make feasible the integrated day-to-day management of the activities.

Underground water rights

Means any of the following:

- (a) underground water rights within the meaning of the *Mineral Resources Act* 1989;
- (b) underground water rights within the meaning of the *Petroleum and Gas* (*Production and Safety*) *Act 2004*;
- (c) underground water rights within the meaning of the *Petroleum Act 1923*, section 87(3).

The fields marked with an asterisk * are mandatory, if they are not completed then your application may be considered not properly made under section 128 of the *Environmental Protection Act* 1994.

GUIDE

If you require assistance in answering any part of this form, or have any questions about your application please contact the relevant department. Contact details are at the end of this form

The environmental authority number and details may be found on the existing environmental authority or quoted in other correspondence received from the administering authority.

If more space is required for any responses, please attach additional information as a separate page.

If there is an agent acting on behalf of the environmental authority holder, provide details in this section. An agent could be a consultant or a contact for the environmental authority holder.

As statutory documents need to be sent to all applicants, this section can also be used when there are multiple environmental authority holders to nominate an address for statutory documentation to be sent 'care of' to.

Criteria for a major or minor amendment and quidance on the difference between the two can be found in the guideline: 'Major and minor amendments' ESR/2015/1684 and s. 223 of the EP Act. The guideline can be found on the business and industry website: www.business.qld.gov.au.

Use 'amend an environmental authority' as a search term.

If you have questions regarding whether your amendment will be minor or major you are encouraged to arrange a pre-lodgment meeting with the administering authority.

For information about whether your activity is eligible for standard conditions, please refer to the business & industry website: www.business.qld.gov.au Use "activities suitable for standard applications" as a search term.

If your activity operates under a code of environmental compliance, this is now considered to be an ERA Standard. You can apply for a condition conversion to obtain the latest standard conditions for that activity.

For further information about which activities have codes of environmental compliance, use the search term "meeting environmental authority conditions".

Describe in detail the proposed amendment and the reason the amendment is being sought*

The decision of whether the amendment is major or minor is made by the administering authority. However, less information is required where the application is minor amendment (condition conversion).

Please indicate below whether you think the proposed amendment will constitute

jor or minor amendment.
Minor amendment – select minor amendment type.
Minor amendment (condition conversion) – you wish to convert all conditions of your EA to the standard conditions for the ERAs to which the EA relates – Go to question 19
By selecting this amendment type you are certifying that you have a complete and thorough understanding of, and can comply with the ERA Standard (eligibility criteria and standard conditions).
☐ Minor amendment (threshold) – Please complete the detailed description below.
Major amendment – please complete the detailed description below.
minor amendment (threshold) or major amendment, provide a detailed ription of your proposed amendment.
de a justification of how your proposed amendment meets the criteria for a r or minor amendment and attach any supporting information to this cation.
amendment is to add or delete a location, tenure or activity, or to change nreshold of an activity, provide details.
ground information
VIDE DETAILS OF THE CIRCUMSTANCES GIVING RISE TO THE PROPOSED NDMENT (IF INSUFFICIENT ROOM, ATTACH A SEPARATE DOCUMENT)*.

Application to amend an environmental authority

If you are adding a new location/s to the EA please provide details of what ERA's you are planning to undertake on that location/s.

If you are amending the EA to request additional ERAs on locations already authorised by the EA please identify the location the activities are being undertaken

If the activities were assessed as part of a coordinated project declared under the State Development and Public Works Organisation Act 1971 (SDPWO Act), you are only able to amend Coordinator General conditions if the Coordinator General's evaluation report for the project has lapsed. If you are unsure if the Coordinator General's evaluation report has lapsed, contact the Department of State Development for more information.

englada ekun negen

Offset delivery can be staged, however for this to occur, the condition of any approved environmental authority needs to state that both the activity and the offset may be staged. As part of your notice of election for each stage under the Environmental Offsets Act 2014 you are required to provide a detailed assessment of the quantum of impact of that stage and the offset obligation requirement to be delivered for that stage.

A regional interests development approval (RIDA) is required when a resource activity is proposed in an area of regional interest under the *Regional Planning Interests Act 2014*. Further information, including application forms, can be found on the Department of Infrastructure, Local Government and Planning (DILGP) website, www.dilgp.qld.gov.au.

8. Environmental offsets

An environmental offset may be required for an ERA where despite all reasonable measures to avoid and minimise impacts on certain environmental matters, there is still likely to be a significant residual impact on one or more of those matters.

You must verify the presence, whether temporary or permanent, of those environmental matters. For more information refer to the State Significant Impact Guideline at the Queensland Government website at: www.gld.gov.au/environment/pollution/management/offsets/index.html

Will the proposed amendment result in a significant residual impact to a matter of State environmental significance (MSES)?*					
□No					
	se attach supporting information that:				
 detail impact of local demonstrate impact include 	Is the magnitude and duration of the likely significant residual of on each prescribed environmental matter (other than matters cal environmental significance) for the entire activity; constrates that all reasonable measures to avoid and minimise of on each of those matters will be undertaken; des a notice of election, if it has not already been submitted; and activity is to be staged, details of how the activity is proposed to				
If your amendment application also involves resource activities, go to question 9. Otherwise, go to question 14.					
	esource activity located anywhere within an area of I interest?*

	☐ Yes→ ☐	I have determined that the amendment will not change the way that CSG water and brine is managed.			
		I have determined that the amendment will change the way that CSG water is managed and have provided the mandatory information set out below.			
	MANDATORY INFOR	MATION			
	1	GG water the applicant reasonably expects will be ection with carrying out each relevant CSG activity.			
	The flow rate at w be generated.	hich the applicant reasonably expects the water will			
	The quality of the water, including changes in the water quality the applicant reasonably expects will happen while each relevant CSG activity is carried out.				
	The proposed management of water including, for example, the use, treatment, storage or disposal of the water.				
	The measurable criteria ('management criteria') against which the applicant will monitor and assess the effectiveness of the management of the water, including, for example, criteria for each of the following:				
	(i) the quantity as disposed of	nd quality of the water used, treated, stored or			
	(ii) protection of the CSG activity	he environmental values affected by each relevant			
	(iii) the disposal o	f waste, including, for example, salt, generated for the of the water.			
	The action proposed to be taken if any of the management criteria are not complied with, to ensure that the criteria will be able to be complied with in the future.				
	If the application in following must be	ncludes a CSG evaporation dam, an evaluation of the provided:			
	(i) best practice e	environmental management for managing CSG water			
	(ii) alternative ways for managing CSG water				
:	managing the feasible altern	is a feasible alternative to a CSG evaporation dam for water. Note if the evaluation shows that there is a ative option, the CSG evaporation dam cannot form er management for this amendment application.			

This question is only required to be completed for amendment applications for resource activities lodged on or after 6 December 2016 when the provisions in the Environmental Protection (Underground Water Management) and Other Legislation Amendment Act 2016 commence.

For more information about exercising underground water rights or the associated application requirements please refer to the Guideline: Requirements for site-specific and amendment applications — underground water rights (ESR/2016/3275). This guideline will be available on the Queensland Government website at www.qid.gov.au, using the publication number 'ESR/2016/3275' as a search term.

11. Exercising underground water rights

Underground water rights provide the tenure holder with a statutory right to take or interfere with underground water in the area of the tenure if the taking or interference with that water is necessarily and unavoidably obtained in the process of extracting the resource.

licence (MDL), mining le	re proposed to be undertaken on a mineral development ase (ML) or petroleum lease (PL), does the proposed nges to the exercise of underground water rights?*
□ N/A → T	he propos	ed activity/activities are not on a MDL, ML or PL.
□ No		
⊠ Yes →	the abe exercised by the action of the acti	st attach documentation detailing: areas in which underground water rights are proposed to exercised; ach aquifer affected, or likely to be affected, by the cise of underground water rights: (i) a description of the aquifer; (ii) an analysis of the movement of underground water to and from the aquifer, including how the aquifer interacts with other aquifers and surface water; and (iii) a description of the area of the aquifer where the water level is predicted to decline because of the exercise of underground water rights; and (iv) the predicted quantities of water to be taken or interfered with because of the exercise of underground water rights during the period in which resource activities are carried out. Environmental values that will, or may, be affected by exercise of underground water rights and the nature and not of the impacts on the environmental values; impacts on the quality of groundwater that will, or may, be not on the environmental values; impacts on the environmental values; impacts on the environmental values; impacts on the environmental values; in or after the period in which resource activities are red out; and regies for avoiding, mitigating or managing the predicted acts on the environmental values or the impacts on the lity of groundwater.
☐ I hav	e attached	d the supporting documentation.
Chapte	er 3 of th	nmental impact statement (EIS) process under se EP Act that includes the proposed sen completed?*
⊠ No		
☐ Yes	s → 🗍	I have assessed the environmental risks of the proposed amendment and consider them to be the same as was assessed in the EIS. A copy of the assessment is attached. Go to question 15.

Completion of an EIS process is defined in section 60 of the EP Act.

I have assessed the environmental risks of the
proposed amendment and consider them to be different
to what was assessed in the EIS. Go to question 13.

The information provided here will assist the administering authority in deciding whether an EIS is required

For further information refer to the guideline: Triggers for Environmental Impact Statements under the Environmental Protection Act 1994 for mining, petroleum and gas activities. This guideline is available at www.qld.gov.au, using the search term 'triggers for environmental impact statements'.

Only answer this question if the current ERA project is for an existing mine extracting between 2–10 million tonnes per year of run of mine (ROM) ore or coal. Is the proposed ERA amendment for an increase in the annual extraction of more than 100% or 5 million tonnes per year (whichever is the lesser)?*	☐ YES ☑ NO ☐ N/A			
Only answer this question if the current ERA project is for an existing mine extracting over 10 million tonnes per year of ROM ore or coal. Is the proposed ERA amendment for an increase in annual extraction of more than 10% or 10 million tonnes per year (whichever is the lesser)?*	☐ YES ☐ NO ☑ N/A			
Only answer this question if the current ERA project is for an existing mine extracting over 20 million tonnes per year of ROM ore or coal extraction. Is the proposed ERA amendment for an increase in annual extraction of greater than 25%?*	☐ YES ☐ NO ☑ N/A			
Is the proposed ERA amendment for a mining activity that will extend into a Category A or B environmentally sensitive area, unless previously authorised by the state?*	☐ YES ☐ NO ☐ N/A			

Is the proposed ERA amendment for a mining activity that would involve a substantial change in mining operations?	☐ YES
For example: from underground to open cut, or (for	⊠ NO
underground mining) a change in operations that currently causes little subsidence but with the proposed ERA	□ N/A
amendment, is likely to cause substantial subsidence?*	
Is the proposed ERA amendment for a mining activity and a	☐ YES
novel or unproven resource extraction process, technology or	⊠ NO
activity, is being proposed?*	□ N/A
Is the proposed ERA amendment for a petroleum and gas	
activity that is likely to have a total disturbance area of greater than 2000 hectares at any 1 time during the life of the	☐ YES
proposed project? This includes areas occupied by well pads	⊠ NO
(single or multi-directional), access tracks and roads, water storages, and process plants?*	□ N/A
Is the proposed ERA amendment for a petroleum and gas	☐ YES
activity that is likely to involve the construction of a high	⊠ NO
pressure pipeline over a distance of 300 kilometres or greater?*	□ N/A
Is the proposed ERA amendment for a petroleum and gas	☐ YES
activity that is likely to involve the construction of a liquefied	⊠ NO
natural gas plant?*	□ N/A
	I

This question is not applicable if an EIS process under either the Chapter 3 of the EP Act has been completed for all the activities that are the subject of this application and the environmental risks of the activities and the way they are proposed to be carried out has not changed since the

EIS was completed

14. Assessment of the environmental impact and provision of specific supporting information

☑ I have attached details of how the criterion is triggered including details of

You must provide an assessment of the likely impact of the proposed amendment on the environmental values, including the following mandatory information in the table below, unless the not applicable check box is ticked.

You must provide an assessment of the likely impact of the proposed amendment on the environmental values, including the following mandatory information in the table below, unless the not applicable check box is ticked.

Only tick the 'Not Applicable' check box if the proposed amendment does not cause a change to the environmental values, aspects and impacts as approved under the current environmental authority.

the impact.

Where the 'Not Applicable' option is selected, **sufficient information must be provided to support this determination**, as the determination forms part of the required assessment.

To provide a response to the mandatory information, specific supporting information must be provided to the administering authority, the type and detail of which will depend on your particular ERA project. Supporting material for technical information requirements is located on the business and industry website www.business.gld.gov.au.

You must include a description of the proposed measures for minimising and managing waste generated by the proposed amendments.

For further Information on technical information to provide with your application, please refer to the business and industry website www.business.gld.gov.au

If you currently have a plan of operations in place and would like to change the amount of financial assurance held, please contact Permit and Licence Management. Details are provided at the end of this form.

15. Provide details of the proposed measures for minimising and managing waste generated by any amendments to the relevant activity*

	dottvity
	WASTE MANAGEMENT DETAILS. IF WASTE IS TO BE MANAGED ACCORDING TO AN EXISTING WASTE MANAGEMENT PLAN, PROVIDE THE RELEVANT PAGE OR SECTION NUMBERS.
	Detailed information on waste management is provided in Section 3.5 of the
	attached Section 226 consideration report.
	•
	16. Do you currently have financial assurance held as part of the approved environmental authority*
	□ No
	Yes $\rightarrow \square$ I will not need to change the financial assurance in relation to this amendment.
	the form Application to amend or discharge financial assurance for an environmental authority (EM875)

Note: Additional fees will be payable for a major amendment.

Application fee

An application fee is payable at the time the application is made. Information on the fee can be located in the

information sheet "Fees for permits for environmentally relevant activities (ERAs)" (ESR/2015/1721).

To pay by credit card you will need to provide contact

details so you can be contacted for your credit card payment to be made over the

Assessment fee for major

For further information refer to the information sheet "Changes to the Environmental Protection Regulation 2008", available at www.qld.gov.au, using 'ESR/2015/1810' as a search

Supplementary annual fee for certain major amendments

The supplementary annual fee can be calculated using the fee calculator, available at www.qld.gov.au, using 'ESR/2015/1731' as a search

phone.

amendment

² For more information on payment options go to the Business Queensland website at <u>www.business.qld.gov.au</u> and search 'Forms and fees for mining and resources'

Assessment fee for all major amendments

Where the proposed amendment is determined by the administering authority to be a major amendment, an assessment fee of 30% of the annual fee for the authority at the time of application, is also payable. The assessment fee is payable once notification of the assessment level decision is issued. The assessment fee must be paid before the assessment of the amendment application can proceed.

Supplementary annual fee for certain major amendments

The supplementary annual fee is payable where the amendment is approved and results in the aggregate environmental score (and hence the annual fee) for the EA increasing. The supplementary annual fee is a pro-rata adjustment to the annual fee for the period from when the amended EA takes effect to the next anniversary day for the EA. This is payable within 20 business days after the approval date.

20. Declaration

Note: If you have not told the truth in this application you may be prosecuted.

Where an agreement is in place between all holders of the environmental authority, that 1 holder can sign on behalf of the other joint holders, please tick the below checkbox.

I have the authority to sign this form on behalf of all the joint holders of the environmental authority.

I declare that:

- I am the holder of the environmental authority, or authorised signatory for the holder of the environmental authority.
- If the proposed amendment is made, the relevant activities will continue to comply with the ERA Standard (eligibility criteria and standard conditions) for all eligible ERAs, or where they cannot, I have indicated otherwise in my application and provided the required support information.
- If the proposed amendment is a minor amendment (condition conversion)
 that I can comply with the ERA Standard (eligibility criteria and standard
 conditions) for each of the ERAs authorised by the environmental authority.
- The information provided is true and correct to the best of my knowledge. I understand that it is an offence under section 480 of the Environmental Protection Act 1994 to give to the administering authority or an authorised person a document containing information that I know is false, misleading or incomplete in a material particular.
- I understand that I am responsible for managing the environmental impacts
 of these activities, and that approval of this application is not an
 endorsement by the administering authority of the effectiveness of
 management practices proposed or implemented.

Where there is more than one holder of the environmental authority, this declaration is to be signed by all holders, unless there is an agreement between all holders that one can sign on behalf of the other.

Note: If only one holder is signing this application form, they are committing all holders to the content of the application and the declaration.

Where the environmental authority holder is a company, this form must be signed by an authorised person for that company.

Privacy statement

The Departments of Environment and Heritage Protection (EHP) and Agriculture and Fisheries (DAF) are collecting the information on this form to process your amendment application for an environmental authority. This collection is authorised under Chapter 5 of the Environmental Protection Act 1994. Some information may be given to the Department of Natural Resources and Mines (DNRM) for the purposes of processing this application. Your personal information will only be accessed by authorised employees within these departments and will not be disclosed to any other

parties unless authorised or required by law. For queries about privacy matters please email <u>privacy@ehp.qld.gov.au</u> or telephone: (07) 3330 5436.
